Includes an
**EPA REGISTERED, HOSPITAL-GRADE
DISINFECTANT/SANITIZER!**

What Is Microbe Ninja?

When added to your business, the Microbe Ninja Disinfection system provides a resource with limitless opportunity. You not only offer a specialized disinfection/sanitizing service, you are also supplying your customers and THEIR customers with peace-of-mind and reassurance that they are in a clean environment.

How Does it Work?

From electrostatic spraying equipment to testing swabs, we have sourced the best application and testing tools that you can find, then we paired it with our Microbe Ninja Hospital-Grade disinfectant to create a truly powerful system that will sustain your business for years to come!

We will supply you with everything you need to get started and work with you to establish your customer's trust and keep it!

What Training Do I Need?

No special training is required! We will provide you with videos to show how to properly test surfaces and techniques for application of all of the products.

What Does It Cost?

Cost depends on several factors including the size of your existing business, type of service, and area/location. Most clients get started for less than \$10,000 AND we will supply you with enough initial Microbe Ninja Disinfectant/Sanitizer to get 3x your initial cost at typical pricing!

Why Should I Use the Microbe Ninja System?

The opportunity has never been greater than now! You could spend a tremendous amount of time and money trying to develop and approve your own system but we've already done the ground work for you! This is also the only green, naturally derived disinfectant that does not use any poisons, pesticides or flammable chemicals.

- More Profitable
- In-Demand
- Simple Ingredients
- Better Products
- Less Dangerous
- Not Flammable or Poisonous
- No Harsh Chemicals
